**Knives, Dissectors**  
**BLADE HOLDERS**

**E0071 F  Breakable Blades Feather Carbon**
- Feather carbon steel blades.
- Designed to break cleanly.
- Ten blades per package.

**E0071*  Breakable Blades Stainless Steel**
- Stainless steel blades.
- Designed to break cleanly.
- Ten blades per package.

**E0058*  Castroviejo Blade Breaker and Holder**
- Features straight, electro-dusted jaws, round knurled handle with slide lock, and polished finish.
- Supplied with one package of ten stainless steel blades (E0071).
- Jaws: 13mm wafer-thin.
- Overall length: 140mm, 5.5 inches.

**E0072 S  STORZ Straight Micro Blade Holder**
- Straight 6mm serrated jaws, round knurled handle with end lock, and dull finish.
- Overall length: 100mm, 4.0 inches.

**E0144 27  Drews Cystotome**
- 27 gauge cannula shaft with sharp tip.
- 10mm from tip to first 50° bend, 5mm to second 10° bend, 4mm from tip to hub.
- Polished finish.
- Overall length: 14mm, 0.6 inches.

**E0141 2B  Kelman Cystotome Knife Blunt**
- 22 gauge cannula shaft.
- Polished finish.
- Edge: Blunt.
- Overall length: 32mm, 1.3 inches.
**Knives, Dissectors  CYSTOTOMES**

**E0141 2S*  Kelman Cystotome Knife Sharp**
- 22 gauge cannula shaft.
- Polished finish.
- Edge: Sharp.
- Overall length: 32mm, 1.3 inches.

**E0146  Kratz Cystotome**
- 22 gauge cannula shaft with sharp tip.
- Shaft angled 60°, 12mm from angle to tip.
- Polished finish.
- Overall length: 13mm, 0.5 inches.

**E0148  Lieppman Cystotome with Cystotome Guard**
- 22 gauge cannula shaft with small cutting tip.
- Supplied with tip guard (E4399).
- Polished finish.
- Overall length: 23mm, 0.9 inches.

**E0141 L  Nevyas Double Sharp Cystotome**
- 22 gauge cannula shaft with sharp front and back edges.
- Polished finish.
- Overall length: 32mm, 1.3 inches.

**E2990  Castroviejo Dissector**
- 1.5mm x 5.0mm flat angled blade.
- Flat serrated handle with polished finish.
- Overall length: 119mm, 4.7 inches.

**E3114  Devers-Terry Dissector Curved**
- Used to dissect or separate stromal tissue during a DLEK procedure.
- Overall length: 127mm, 5.0 inches.

**E3113  Devers-Terry Dissector Straight**
- Used to dissect or separate stromal tissue during a DLEK procedure.
- Overall length: 127mm, 5.0 inches.
**E0480**  **Fogla Pointed Dissector**

- This instrument is designed to facilitate lamellar dissection of corneal stroma allowing the introduction of the Fogla Air Injection Cannula (E4924) for creation of the “big bubble” (plane separation between Descemet’s membrane and corneal stroma).
- The sharp tip and rounded shaft give a more controlled creation of the lamellar pocket in DALK surgery.
- Overall length: 117mm, 4.6 inches.

**E3001**  **Martinez Double Ended Corneal Dissector Knife**

- Double ended 3mm x 11mm angled sharp blades.
- Flat handle with polished finish.
- Overall length: 127mm, 5.0 inches.

**E0478**  **Slade Laser LRI Dissector**

- Designed to open femtosecond laser incisions quickly and effectively at the time of surgery or during a follow up visit.
- The blunt tip is designed to prevent penetration through the cornea.
- Four dissecting edges at the tip are designed to assist dissection of a curved incision without rotation of the instrument.
- Overall length: 117mm, 4.6 inches.

**E0396**  **Gill Corneal Knife Curved**

- 3mm x 18mm smooth blade.
- Flat serrated handle with polished finish.
- Curved.
- Overall length: 119mm, 4.7 inches.

**E0398**  **Gill Corneal Knife Straight**

- 3mm x 18mm smooth blade.
- Flat serrated handle with polished finish.
- Straight.
- Overall length: 119mm, 4.7 inches.

**E0390**  **Tooke Corneal Knife**

- 3mm x 18mm smooth blade.
- Flat serrated handle with polished finish.
- Overall length: 119mm, 4.7 inches.
Knives, Dissectors

E0470  **Maumenee Goniotomy Knife Cannula**
- 23 gauge cannula shaft with 2.5mm sharp blade.
- Polished finish.
- Overall length: 31mm, 1.2 inches.

E3011  **Scleral Resection Knife**
- 3mm x 5mm blade set at 45° angle.
- Flat serrated handle with polished finish.
- Overall length: 123mm, 4.8 inches.

E7250  **STORZ Cataract Knife Guard**
- Designed to hold and protect cataract knives from 115mm to 155mm.
- Stainless steel construction with dull finish.
- Overall length: 148mm, 5.8 inches.

E0334*  **Bard-Parker Handle**
- No. 9 knife handle used with Bard-Parker blades.
- Dull finish.
- Overall length: 116mm, 4.6 inches.
